André Polvo

O MOVIMENTO DO BATERISTA

Guia de coordenação e independência

Editora

Apresentação

Apresentação

Olá, meu nome é André Marques Fernandes e venho através desse método de bateria demonstrar de uma forma bem simples e intuitiva, diversas coordenações, sonoridades, viradas e ritmos representados por uma "escrita musical" diferente, que resolvi adaptar após anos de ensinamentos para meus alunos. Os sinais e as setas são as figuras principais desse método, onde adultos e crianças poderão compreender naturalmente a essência do movimento e como coordenar seus pés e suas mãos de uma forma inovadora em relação a utilizada nos dias de hoje. Espero que através de uma nova idéia, o mundo de possibilidades se abra para você.

Neste método apresento 6 tipos de movimentos que acho fundamental para aplicações de viradas e ritmos, são eles:

- Movimento Fixo (uma das mãos fica sempre no mesmo tambor)
- Movimento Diagonal (a mão sempre vai de um tambor ao outro no sentido diagonal)
- Movimento Horizontal (a mão sempre vai de um tambor ao outro no sentido horizontal)
- Movimento Vertical (a mão sempre vai de um tambor ao outro no sentido vertical)
- Movimento Circular (a mão sempre vai de um tambor ao outro no sentido circular, usa-se 4 tambores)
- Movimento Triangular (a mão sempre vai de um tambor ao outro no sentido triangular, usa-se sempre três tambores)

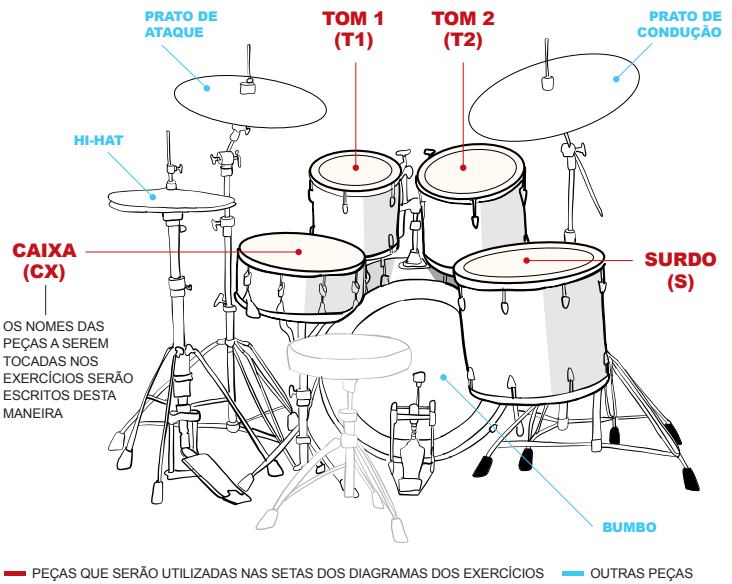
Existe mais um movimento que não considero dentro os 6 pois ele é a mistura de alguns que resolvi adicionar, mesclando assim algumas idéias diferentes, chamado de Movimento Aleatório.

Como estudar?

Todos os exercícios e coordenações que proponho, foram pensados para serem feitos sempre com as mãos intercaladas, isto é, mão direita e depois esquerda, ou vice e versa. É muito importante seguir o roteiro das notas e BPMs que aconselho para cada tipo de toque (simples e duplos) pois isso influenciará demais na capacidade de desenvolvimento e compreensão de cada movimento. Muitas das vezes aparecerá os cruzamentos de braços ou também conhecido pelo nome de (Crossover) onde você terá que ver a melhor posição das mãos para conseguir o melhor desempenho. Tenho certeza que após conseguir fazer diversos desses exercícios, com certeza será capaz de aumentar o poder da criação e desenvolvimento que há dentro de você.

Bom estudo e aprendizado!

Peças de uma bateria

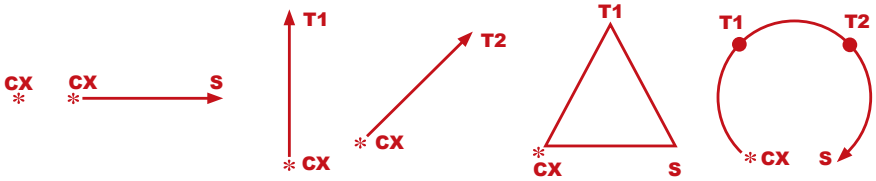


Simbologia

* Asterisco indica o início do movimento

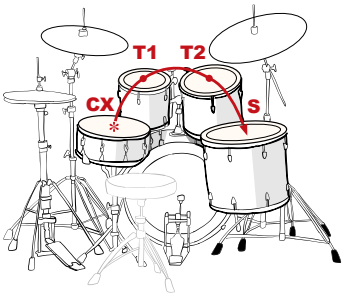
*→ A seta indica a direção do movimento de início * e fim

• Os pontos indicam a localização dos tambores restantes

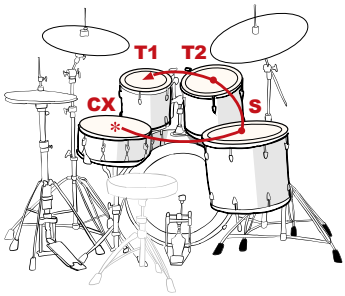


Tipos de movimento

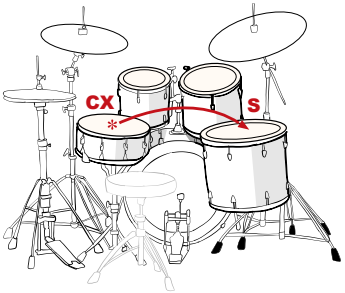
1. Movimento circular horário

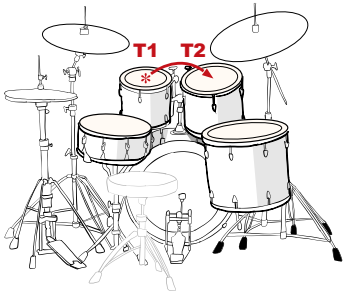


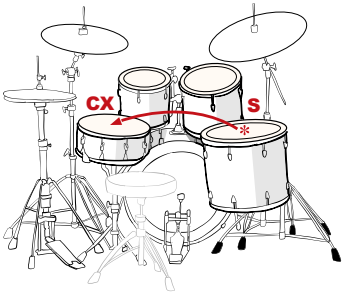
2. Movimento circular anti-horário

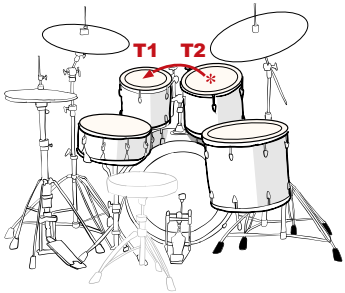


3. Movimento horizontal

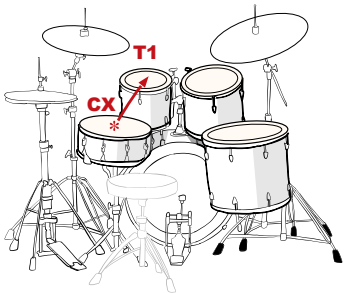


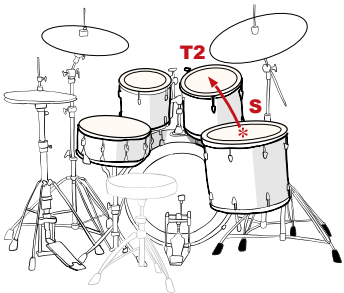


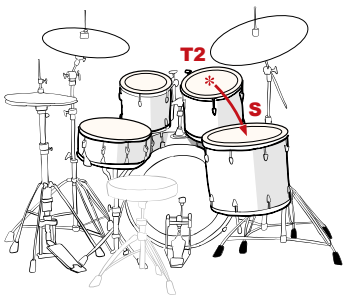


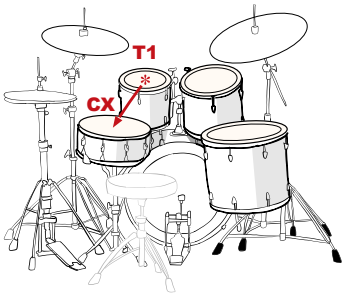


4. Movimento vertical

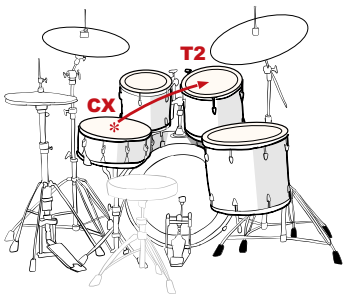


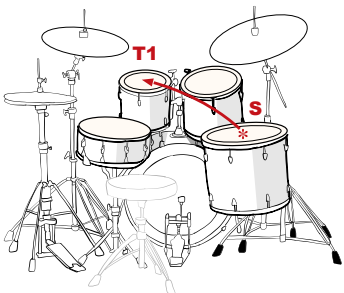


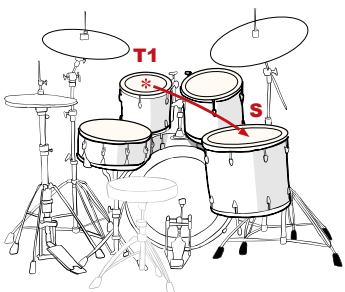


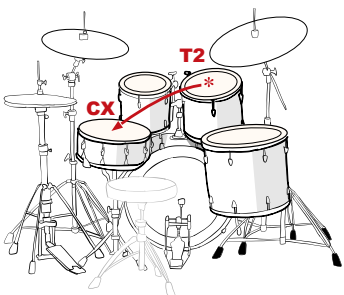


5. Movimento diagonal

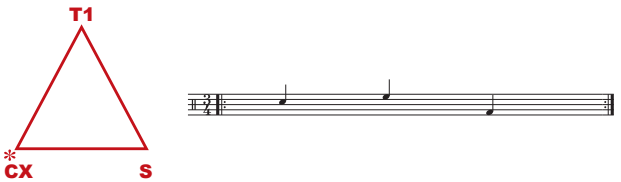


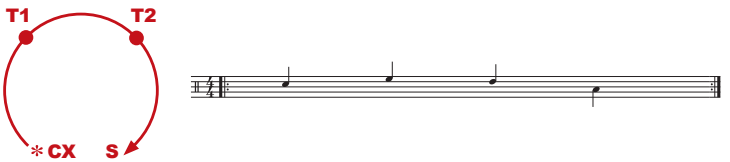






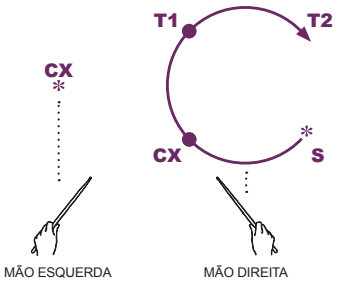
Aplicação



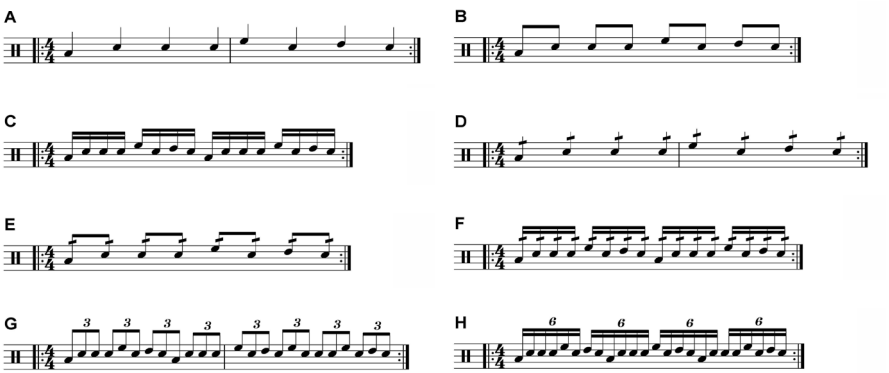


Movimento circular fixo

Exemplo do 4º exercício do movimento circular fixo



EXERCÍCIOS A, B e C – TOQUE SIMPLES (D ,E ,D ,E) – DE 60 A 150 BPM
EXERCÍCIOS D, E e F – TOQUE DUPLO (DD ,EE ,DD ,EE) – DE 80 A 115 BPM
EXERCÍCIOS G e H – TOQUE SIMPLES (D, E, D, E) – DE 90 A 120 BPM



FAÇA TODOS OS EXERCÍCIOS ACIMA COM ESSES BUMBOS E HI-HATS

Exemplos

SIGA O EXEMPLO ACIMA E FAÇA O MESMO COM OS EXERCÍCIOS (1, 2, 3, 4, 5, 6, 7, 8, 9 e 10)
COLOCANDO PARA CADA UM DELES OS EXERCÍCIOS (A, B, C, D, E, F, G e H)

CRIE OUTROS GROOVES COM O HI-HAT E O BUMBO EM SEMÍNIMAS, TERCINAS, SEMICOLCHEIAS, ETC.

OBS.: OS EXERCÍCIOS 'G' e 'H' FAZER APENAS COM OS EXERCÍCIOS (1, 4, 6, e 8)
